ELSEVIER

Journal of Contaminant Hydrology 22 (1995) 289–290

JOURNAL OF
Contaminant
Hydrology

Contents Volume 22, 1996

VOL. 22, NOS. 1–2

Research Papers

Temporal discretisation errors in non-iterative split-operator approaches to solving chemical reaction/groundwater transport models
D.A. Barry, C.T. Miller and P.J. Culligan-Hensley 1
Effect of subsurface heterogeneity on free-product recovery from unconfined aquifers
J.J. Kaluarachchi 19
Effects of high variance of fracture transmissivity on transport and sorption at different scales in a discrete model for fractured rocks
A.W. Nordqvist, Y.W. Tsang, C.-F. Tsang, B. Dverstorp and J. Andersson 39
Application of a model for simulating transport of reactive multispecies components to the study of the hydrochemistry of salt water intrusions
V. Gomis, N. Boluda and F. Ruiz 67
The sorption of 2-methylnaphthalene by Rossburg Soil in the absence and presence of a nonionic surfactant
Y.-P. Chin, K.D. Kimble and C.R. Swank 83
Evaluation of flow characteristics of a sand column using magnetic resonance imaging
F. Hoffman, D. Ronen and Z. Pearl 95
Impact of aquifer sediment grain size on petroleum hydrocarbon distribution and biodegradation
C.M. Aelion 109
A top specified boundary layer (TSBL) approximation approach for the simulation of groundwater contamination processes
H. Rubin and R.W. Buddemeier 123

VOL. 22, NOS. 3–4

Research Papers

Column- and catchment-scale transport of cadmium: effect of dissolved organic matter
R.G. Gerritse 145
Characterization of metal adsorption variability in a sand and gravel aquifer, Cape Cod, Massachusetts, U.S.A.
C.C. Fuller, J.A. Davis, J.A. Coston and E. Dixon 165
Diffusive transport through compacted Na- and Ca-bentonite
J.-W. Choi and D.W. Oscarson 189
Non-linear chlorinated-solvent sorption in four aquitards
R.M. Allen-King, H. Groenevelt, C.J. Warren and D.M. Mackay 203
Simulation of organic liquid flow in porous media using estimated and measured transport properties
A.H. Demond, K. Rathfelder and L.M. Abriola 223

A new approach to electrokinetic remediation of soils polluted by heavy metals
Z. Li, J.-W. Yu and I. Neretnieks 241
Migration of ^{137}Cs through quartz sand: experimental results and modeling approaches
J.E. Saiers and G.M. Hornberger 255
Analysis of biodegradation and bacterial transport: Comparison of models with kinetic and equilibrium bacterial adsorption
H.L. Reddy and R.M. Ford 271
